## PROFILE

I graduated from Azerbaijan State Oil and Industry University (ADNSU) with a degree in Computer Science and currently pursuing a master's degree. I am passionate about backend development, particularly working with Laravel. I am eager to learn and constantly follow new technologies to improve my skills.

*Professional Goal*

My goal is to work as a backend developer, gain more hands-on experience, and apply my knowledge in real-world projects to enhance my skills further.

## WORK EXPERIENCE

### Azerbaijan National Academy of Sciences (AMEA) – Intern (Django) 2023-2024

- Gained skills in building and managing web applications using the Django framework.
- Gained experience in working with databases and displaying data through templates.
- Developed skills in working with ORM (Object-Relational Mapping) and query methods.

### Scorpion IT Company – Intern (PHP Laravel, MySQL) 2024-2025

- Created and improved dynamic web applications using the Laravel framework.
- Developed skills in working with MySQL databases and managing data using Eloquent ORM.
- Learned the fundamentals and application of Object-Oriented Programming (OOP).
- Participated in projects based on MVC architecture and optimized database structures.
